## Savole, the majestic feeling

**Bijou has launched an opulent** new range of taps. Savole is for the uncompromising individual who seeks a sleek edge in bathroomware. The new range is available in classic chrome and stylish satin nickel.

The simple design still has French origins to tantalise the senses in looks and touch, featuring a distinctive broad lever. Bijou's design team drew their inspiration from classic chrome finishes, which have been an industry standard for many years. The mirror-like finish complements the flat top of the handle design and reflects light in a majestic fashion.

The Savole range's sophisticated satin nickel finish also sets new trends with its broad and elegant tap shape. The styling goes well with raw and dark backgrounds as it takes centre stage on any basin, bath or sink. The full range is made up of a short and long body basin mixer, bath mixer with hand shower, under-tile mixer and diverter and, of course, a kitchen sink mixer to finish off your kitchen look as well.

If you enjoy a minimalistic approach to your home styling, the Savole range is truly a perfect match! [www.bijou.co.za](http://www.bijou.co.za)

# BIJOU<sup>TM</sup>
